Uniform DoP 2→40 (labels: DoP)
DS2
Dhalion
Flink
Spark
Storm
RisingWave
Kafka Streams*
Spark: up to 1.6× throughput;
tuners trade throughput for latency
RisingWave: all DoPs near (1, 1)
Storm: up to 3× throughput
at ≤1.5× latency;
tuners 0.3–0.9× throughput
Flink: 1.5× throughput at 1.9× latency;
tuners 1.9–2.4× throughput
at 5.5–6.7× latency
inverse latency (normalized to uniform DoP 2)
throughput (normalized to uniform DoP 2)
Kafka Streams* (log scale)
output falls to 0.17×;
latency of the few emitted
records 20× lower
throughput (normalized to uniform DoP 2)
